Summary

I am passionate about leveraging my skills and knowledge in the field of technology. I am particularly interested in joining Google to contribute to innovative projects and further develop my expertise. My academic foundation includes a strong understanding of deep web development, proficiency in user interface design, and skills in web design.
Additionally, I possess knowledge in Data Structures and Algorithms (DSA) and am proficient in coding languages such as Java, Python, and JavaScript. I am eager to apply my technical skills and enthusiasm for technology to make meaningful contributions in a dynamic and collaborative work environment.
